

and tirelessly for many years providing the very essence of life and lifestyle for all connected with them.

And, when the time eventually comes for a "make-over" for them, it is a comparatively routine and inexpensive process. We wish we could "age" as gracefully!!!

But ... piston pumps don't operate themselves. And who could not have the same level of respect for the wonderful old motors which allow the pumps to work their magic in a way that only water can. In the same way that rain and smiles go together.

Do you just need a replacement wet-end kit for your machine ... we have maintenance kits available for pumps - some are interchangeable with others or we may be able to source kits for other brands for you - just contact us when you are ready!!!

We main supply Rexroth ,Vickers, Nachi, Daikin, Yuken, Denison, Komatsu, Sumitomo products.

If you need pumps, [kindly tell me the complete parts number or take a details photo on Name Plate.](#)

It will be help us check and offer you sooner.
we look forward to hearing from you!
